You will be sharing the space with other companies so the time for get-ins will be limited. Technical plans should be simple and flexible.

Do you have any special technical requirements?:

How did you learn about BE FESTIVAL? (Please be specific. eg. if you learnt about us from the internet, which website?):

The most important part of this application is your video. So please send us the best quality footage you can. We don't consider edited trailers as it is impossible to assess the work properly. However we do programme pieces still in development so we are very happy to consider video of rehearsals.

Include here the link to your video (and any password to view it):
IMPORTANT: videos must be available for viewing until March 2015.

If you can't send a link, it is possible to share a file with us.

Please don't send any photos or additional materials.

Please email this form by Friday 9th January at 23:00
to submissions@befestival.org

IMPORTANT: Change the name of the .pdf to include the title of the piece.
